

Sovereign in appearance.

SUMMA

A high design element combined with clear functionality and flexibility are the requirements placed on the modern office. Intriguingly versatile, SUMMA opens up new dimensions for creative office design and has the appeal of a timeless design classic. The distinctive design feature is the slim and elegant base made of polished aluminium.

Extraordinarily flexible in action.

1 | Classic: The elegance of the design amplifies the aesthetic design of a conference room.

2 | Mobile: With a SUMMA folding table, even the most short-term moves are no longer a problem. Folded up twice, it fits every lift.

3 | Intelligent: The ideal partner for a taskforce meeting. The quick set-up and removal provides the greatest flexibility.

4 | Discrete: Sophisticated cable management lets the cables disappear invisibly under the table top and down the table legs, while guaranteeing direct access.
